

W. C. T. U. STRIVING TO SAVE TEMPLE

CHRISTIAN TEMPERANCE WOMEN FACE A GRAVE PROBLEM.

Facts Are Laid Before Them—Committee of Investigation Makes Its Report—A Great Deal Depends On Miss Willard's Attitude In The Matter—Visitors Thronging to the City

Buffalo, N. Y., Oct. 29.—Before a committee of the whole the tale of the Temple at Chicago was told. Stripped of all dream and theories, the Temple facts were laid before the delegates to the National Woman's Christian Temperance union convention by the investigating committee. At the executive committee meetings Thursday the investigating committee made its report. But the executive officers will pass the responsibility to the entire body. It now will rest with the convention as a committee of the whole.

Sentiment and figures are still struggling for supremacy among the delegates of the National Woman's Christian Temperance union, from President Frances Willard down to the newest members. The question of the Temple in Chicago is the one theme. Miss Willard believes the philanthropic world will assist, if in convention assembled it is called upon to do so. Should Miss Willard urge such a step, the crisis will be postponed, at least averted, possibly, for Miss Willard's influence among the temperance workers is more pronounced than ever, and her attitude is the keynote of the Temple's future.

Five hundred delegates have registered and more are on the way; 3,000 temperance trunks have been hurried over the streets, and it is thought the longed-for 6,000 visitors will be in Buffalo to-night.

A few meetings were held Thursday afternoon and evening, and knots of interested ones went to the churches and concert halls.

Miss Eva Shontz of Chicago, who pledged herself to raise \$25,000 at the recent day of prayer, is here all faith and enthusiasm, still hoping. "So far \$3,500 has been pledged, but I am sure by January 1 I shall have the entire amount in my hands," she says.

When the convention is over Miss Willard will make a short visit to Chicago. She will sail the latter part of November for England, where she is to remain a year.

Chicago, Oct. 29.—Between 9 and 10 o'clock yesterday morning 400 members of the grand chapter of Royal Arch Masons of Illinois began the forty-eighth annual convocation of the chapter. The morning was almost entirely taken up with the opening address by the grand high priest and by the reading and acting upon the reports of Grand Treasurer Wiley M. Egan of this city and Grand Secretary Gil W. Barnard, also of Chicago. Just before adjournment of the morning session officers for the ensuing year were chosen. Eugene L. Stoker of Evanston, who during the last year had served as grand deputy high priest, was elevated to the position of grand high priest of the chapter.

St. Louis, Mo., Oct. 29.—At Thursday's session of the Missouri Presbyterian Synod a resolution was introduced calling for the boycotting of the Princeton University because three members of the board of trustees of that college had signed a petition for a saloon license. To Stop Pelagic Sealing.

Washington, Oct. 29.—It is stated that the conference of Russia, Japan and the United States, now proceeding here in reference to sealing in Behring sea and the North Pacific, has advanced to an important stage, and that a proposition has been reduced to writing which, if accepted, will bring about a complete change in the sealing question. It is understood that the proposition has a far-reaching scope and provides for the material limitation or entire suspension of sealing on the high seas. Such a decisive step, if agreed to by Russia, Japan and the United States would, it is understood, not involve any concerted move to menace the claims of Great Britain and Canada to the right of pelagic sealing on the high seas.

Train Wrecked by a Switch.

Fort Wayne, Ind., Oct. 29.—Lake Erie & Western passenger train No. 42, due here at 10:30 Thursday night, was thrown from the track two miles south of the city. New Orleans, La., Oct. 29.—Thursday's record of new cases and deaths has not worked any material change in the yellow fever situation, which, while not as bright as it might be, is not regarded by the board of health officials as alarming. WARDEN WANTS AID AGAINST THE UTES

OFFICER TELLS THE STORY OF THE INDIAN TROUBLES

Are On the Warpath—Warden Tried to Take Forty of them With His Band of Twelve Men—Denver Authorities Say the Action Was Indiscreet—Slaughter Is Feared

Meeker, Col., Oct. 25, via Rifle, Col., Oct. 28.—Boyd Vaughn arrived here from Snake river with a dispatch from the governor and the following letter to Game Warden Lytle:

"Boyd Vaughn's Ranch, Oct. 24, 1897.—James Lytle, Game Warden, Meeker, Col.: Today, with a party of twelve men, I tried to arrest a camp of Ute Indians. We used all patience and they fired upon us and then we had to fight. On Snake river, five miles above Lily Park, several Indians were killed and wounded.

"I have riders to warn settlers in Lily Park and elsewhere, the settlers are gathering at Vaughn's ranch, and are much alarmed and think you should turn out with what men you can to try and arrest the Utes. I believe that there are about sixty Utes in this camp, but late information shows at least 100 men, and some say 200. I have seen about forty, but they were at many places and may retaliate, but if these Indians wish to, the settlers are entirely at their mercy, so you and the sheriff of Rio Blanco county had better do what you can to protect the settlers. Yours, respectfully, "W. R. WILCOX."

Mr. Vaughn reports seven Utes killed. The first shot was fired by an old squaw. The bucks then began firing, and the warden returned the fire, killing and wounding quite a number. Much feeling is shown against Warden Wilcox here for his indiscretion in attempting to arrest a camp of forty Indians, as it is almost certain to result in the killing of settlers in the western part of this and Rout counties.

In conclusion the Eclair says:

"France is acting in these regions by express desire of the mahdi in conformity with the principle of the maintenance of the integrity of the Ottoman empire, incessantly proclaimed by M. Hanotaux, the French minister for foreign affairs."

The British and French commissioners appointed to discuss the territorial disputes in west Africa between France and Great Britain began their sessions today, the French minister for foreign affairs, M. THIS YEAR'S ELEVEN
IS A SURE WINNERHIGH SCHOOL BOYS PROUD OF
TEAM.

First Venture At the Kicking Game Was Made In 1893 and Since Then There Has Been Steady Progress—Make-Up of the 1897 Team.

Five years' of experiment and adversity has developed a winning football team in the Janesville high school. The first Janesville team was organized in the fall of 1893, when the school boasted of such athletes as the late John B. Day, Harry Welsh, who now plays with the Hyde Park team of Chicago, Perley Dean, V. D. Atwood and others. This team did not make a very brilliant record, not having scored against a single eleven. Perhaps an allowance should be made as they played teams far superior to them, such as Beloit college, Madison high school, Rockford, etc.

The next year another team was sent upon the gridiron but met with no better success. It was hard to secure eleven men the following year to play, the record of the previous teams still being fresh in memory, but this difficulty being overcome a coach was secured from Beloit college and the team put in a few days hard practice in preparation for their first game with Beloit high school. The former teams always being defeated the boys met with some difficulty in selling tickets, but enough were sold to cover expenses. Great was the enthusiasm of those assembled when Janesville scored a touchdown—the first in the history of the high school! The later divided things equally, however, allowing Beloit to score a single touchdown and the game ended 4 to 4. A few victories were credited the team in 1895, but not enough to make a good showing on paper.

The team of '96 was the first to secure any pronounced victories—defeating Evansville, Beloit and Lake Geneva. But it remained for the present team—the team of '97—to establish a precedent, which it is hoped may follow through the ensuing year. The team has not been defeated this year and has been scored against only once; and that by Beloit last Saturday when the game ended. The success this year may perhaps, be attributed to the fact that all members of the team are experienced players and also to the excellent coaching of W. J. Mc Masters, of Beloit college. Mc Masters played end on the college team of that city, for two years, thereby fitting himself for position as coach. He refused several flattering offers this year from various teams, preferring to complete his course at Beloit.

The Janesville members of the present team and their positions are as follows:

Eddie Jerg—Center. Height 5 feet six inches; weight 160 pounds. Has played center for the last three years, and has gained the reputation of being one of the best in the state.

Ira Millmore—Right tackle. Height 6 feet. Has played right tackle for two years, and is a tower of strength in the line.

Boyd Kott—Right tackle—Height 5 feet 10 inches; weight 160 pounds. Has played for two seasons, and is one of the quickest and most reliable ground runners on the team. He is especially good on long distance gains.

R. Bonesteel—Right end. Height 5 feet 7 inches; weight 140 pounds. This is his first year, but he holds one of the most responsible positions on the team. He is always played when a large gain is necessary, on the third down.

S. Murwin—Left guard. Height 5 feet 11 inches; weight 150 pounds. Has played two years, and is especially good on defensive work. C. Smith—Left tackle. Height 5 feet 10 inches; weight 172 pounds. This is his third year, and he is one of the best players on the team. He is especially good on line bucking. To lose him would weaken the team considerably.

H. Carpenter—Left end. Height 5 feet 11 inches; weight 151 pounds. Is in his second year, and is especially good in breaking up interference. Has been a little handicapped on account of dislocating his shoulder in the first game this season.

Leonard Matthews—Quarter back. Height, 5 feet 6 1/2 inches; weight, 138 pounds. This is his first year on the first eleven, but he is the best quarter back in the history of the school. He is always sure, steady, and composed, rarely fumbles, and is the only goal kicker on the team.

R. McDonald—Left half back. Height 5 feet 9 1/2 inches; weight 150 pounds. This is his second year back of the line and he is an excellent line backer and runner. He never fails to make five yards at a time.

Phillip Casford—Right half back. Height 5 feet 4 inches; weight 135 pounds. Has played

NO WASTE OF WORDS.

Evidence Which is Right to the Point and Reliable.

Judge Frank Ives, of District Court of Crookston, Minn., says: "For some time I have used Stuart's Dyspepsia Tablets with seeming great benefit, with few exceptions, I have not been so free from indigestion in twenty five years."

George W. Roosevelt, U. S. Consul to Brussels, Belgium: "Stuart's Dyspepsia Tablets, safe, pleasant to take, convenient to carry, give keen appetite, perfect digestion."

Mr. W. D. Tomlin, Mechanical Engineer, Duluth, Minn.: "One box of Stuart's Dyspepsia Tablets has done its work and I am again gaining flesh and strength."

O. E. Ransom, Hustonville, Ky.: "I was distressed and annoyed for two years with throwing up food, often two or three times a day; had no certainty of retaining a meal if I ate one. Four boxes of the tablets from my druggist have fully cured me. I find them pleasant to take, convenient to carry."

Rev. G. D. Brown, Mondovi, Wis.: "The effect of Stuart's Dyspepsia Tablets is simply marvelous; a quite hearty dinner of broiled beef steak causes no distress since I began their use."

Over six thousand people in the state of Michigan alone in 1894, were cured of stomach troubles by Stuart's Dyspepsia Tablets.

Full sized packages may be found at all druggists at 50 cents. Send for little book on stomach diseases, mailed free by Stuart Co., Marshall, Mich.

two years back of the line and one year as end, so he is entirely familiar with the game. He is the fastest and pluckiest man on the team.

Charles Sutherland—Captain and full back. Height 5 feet, 8 inches; weight 178 pounds. This is his fourth year on the gridiron, and his second as captain. To him should be given much of the credit of organizing the team and of their success. By his personal influence he is able to draw the team together and maintain a good spirit. As a player, few in the high school league are his equals, none his superiors. Always calm, steady and composed, he gives the right signal always at the right time. His judgment has proven excellent.

P. Wallis—Substitute quarter back. Height 5 feet, 8 inches; weight 150 pounds. This is his first attempt at the game but he will develop into a strong player.

A. Remis—Substitute tackle. Height 5 feet, 8 inches; weight 137 pounds. He is a little light for a line now but always manages to hold his own. Will make a good player and is an excellent tackler.

J. Fitcher—Substitute guard. Height 5 feet, 9 inches; weight 151 pounds. This is his first year but he is an excellent player.

The team is managed by Mark L. McNamara, and through his labors a series of games which have been the best that could be procured have been arranged. The team thus far has met and defeated the following teams:

Sept. 25, Beloit at Janesville, 12 to 0.

Oct. 2, Edgerton, cancelled.

Oct. 9, Evansville at Evansville, 18 to 0.

Oct. 16, Whitewater Normal, 2nd, at Janesville, 22 to 0.

Oct. 23, Beloit at Beloit, 10 to 1.

The teams yet to meet are:

Oct. 30, Whitewater High school at Whitewater.

Nov. 5, Madison High school at Janesville.

Nov. 20, Whitewater at Janesville.

Nov. 25, Evansville at Janesville.

The game with Madison has been scheduled on Friday to give the business men of the city a chance to witness it. Madison has not in the last four years been defeated or scored on by a high school team, but the Janesville boys are determined to score, if not to win. It will probably be the best exhibition or football ever seen in the city.

MYSTERY ABOUT BARLEY PRICE

Local Dealers Say They Can't Pay Over 28 Cents—Investigation Begun.

Local grain dealers declare that from twenty five to twenty eight cents is the best that any one can afford to pay for barley when the freight rates from Janesville to Chicago are taken into consideration. They have begun an investigation in hopes that something will develop that will enable them to offer larger prices.

"You may rest assured that we pay all we possibly can for barley," said F. A. Spoon this morning. "In fact I have taken several crops at a figure that resulted in actual loss in order to keep trade coming this way. We are interested in the coal trade as well as the grain trade and cannot afford to let barley be taken out of the county if there is any way to prevent it."

FEW TEETH EXTRACTED HERE

Local Dentists Say This is Why They Do a Good Business.

Very few teeth are extracted in this city. So says a local dentist who ought to know what he is talking about.

"Janesville people take good care of their teeth, the majority having an examination made once every six months. This makes business good for dentists and at the same time reduces the amount of extracting."

There is no need of little children being tortured by scald head, eczema and skin eruptions. De Witt's Witch Hazel Salve gives instant relief and cures permanently. C. D. Stevens.

FLOUR TAKES A SHORT JUMP

Ten Cent Advance Made By Local Grocers—Speculators Profit.

Several Janesville grocers have advanced the price of flour ten cents a sack, claiming that they are compelled to do this in order to make expenses. This rise will benefit those who are speculating. A number of local dealers have a large supply of flour on hand bought at lower prices.

Disfigurement for life by burns or scalds may be avoided by using De Witt's Witch Hazel Salve, the great remedy for piles and for all kinds of sores and skin troubles. C. D. Stevens.

Our depot agent, Mr. Curler, has moved his family to Janesville. Ed. Case of Irving Park, Chicago, has bought the farm known as the Wadsworth farm, of Frank Steadwell. Frank and his wife are getting ready to move to Janesville, soon. Mrs. John Shimeall died of congestion of the lungs, Thursday afternoon, aged sixty-eight years. 400 BOYS TRAINED TO YELL

John Fisher of This City, One of the U. W. Yell Masters.

When those four hundred college students leave Madison this evening for Minneapolis to witness the great Wisconsin-Minnesota football game to be played tomorrow afternoon, it will not be a bad guess to say that the majority of the Janesville boys in the state university will be on the train. John Fisher of this city, has been chosen as one of the "yell master" that will lead the cheering for the cardinal. A number of yells written for the occasion have been practiced, but their practicability may well be doubted alongside of the conquering slogan, U-rab-rab, Wisconsin. A clever song by Phil. Allen to the air of There'll be a Hot Time in the Old Town is the most agreeable of the vocal calisthenics. The song is perhaps too long to be available on short notice but the chorus will undoubtedly be an effective catch:

Cheer, boys, cheer! Wisconsin's got the ball. U. Rah, Rah! Oh, won't they take a fall. For when we hit their line, they'll have no line at all. There'll be a hot time at Wisconsin tonight.

J. O. Berry, one of the best known citizens of Spencer, Mo., testified that he cured himself of the worst kind of piles by using a few boxes of De Witt's Witch Hazel Salve. He had been troubled with piles for thirty years and had used many different kinds of so-called cures; but De Witt's was the one that did the work and he will verify this statement if any one wishes to write him. C. D. Stevens.

HE COUGHED AND GREW FAT

Lloyd D. Spencer Taking Treatment in This City For Croupulence

In order to reduce his flesh Lloyd D. Spencer, a fourteen year old Evansville youth weighing 240 pounds, is now in this city undergoing Turkish bath treatment, and living on a very strict dietary at the Park hotel. He has tried every known remedy without avail. His weight is a subject he discusses with reluctance.

"I am not to blame for it," he remarked, "but the less the public knows of my troubles the better it pleases me."

His remarkable increase in weight dates from an attack of whooping cough several years ago. He gained five pounds the first week he was sick and has continued to gain ever since. Physicians explain that the nutritive functions of his body are much more active than the excretory functions, the result being a constant storing away of adipose tissue—perfectly sound and healthy but none the less burdensome. The change has not interfered the least with his school work. He went through the Evansville seminary with honors, and has been attending school in Madison. None of his family show any tendency toward croupulence, although he would be perfectly willing to divide.

THE OVERFLOW OF LOCAL NEWS.

WITH THE YARDMASTER

I notice that carpet beating is becoming quite a fad. When a woman sets a day off to one side for house cleaning, she keeps it to herself as a rule, so as to spring a surprise on her husband. That day arrives. The husband finishes his breakfast and starts off down town. He hears a familiar voice. His wife wants a word with him before he goes. When he returns to the door step, he must listen to his sentence.

"Now, you see this is the day I've set out to do house cleaning," says the wife, "and I want you to take up that carpet in the parlor, (and be awful careful not to scratch the piano); hang it on the clothes line and beat it good. Take the sewing machine up stairs so it will be out of the way, and what ever you do, don't knock down the stove. There is a fence rail out there you can use for beating with, and don't be long, for I must get through."

I can see that man staring into space. I can see him look way off toward the purple skies, heave a sigh and say to himself "My heavens! has it come to this?" Then I can see him in the back yard impersonating a Roman gladiator until he turns black in the face. Then his wife's tender voice is heard from an upstairs window:

"How are you getting along dear?"

"Getting along! Can't you see that I am dead? If I beat this carpet three minutes longer, you can just send for the black wagon."

"Oh well, I guess that will do now. You can put down the carpet and stretch it good and tight like a sweet, dear little man and don't forget to bring down the sewing machine and put it back just as you found it."

This is what might be called fun for the men folks when the autumn leaves are falling.

Time is leaking out, drop by drop, and we never stop to think what a serious thing it would be if we could read the epitaphs on our own grave stones. The cold blast of winter is nigh at hand. The meadows will soon be a frozen glare. Straw hats are resting in the woodsheds, waiting for a another summer's sun.

The scorching breath will freeze up in spots, and that pneumatic tire'd feeling from the centuries made last summer, will be doctored up for the spring trade. Get out your skates. Look up your claw-hammer coat and low-neck shoes. Take a bismuth powder and prepare for all the fun in store.

The man who will take time to invent a safety shoe for walking on the plank sidewalks in Janesville will soon get rich. The shoes should be long enough to spread over large holes. This would be to keep people from falling through and breaking much-cherished bones. I would suggest that Norwegian snow shoes eight feet long be used during the winter. Of course they are heavy, but it is best to be on the safe side.

WHY THEY GET THE BARLEY

Delavan Merchants Happy Over the Way Farm Trade Is Turning.

The Delavan Republican in this week's issue says:

"We wonder if it's not because of better prices at Walworth's metropolis that farmers from within three and four miles of Janesville, Whitewater and Clinton draw their entire output of grain here for shipment. We notice also that nearly every one of them makes a purchase of a greater or lesser amount before leaving for home. We wonder if that is the reason our business men so generally assume a prosperous and contented look."

The fact that Delavan stores keep open every night in the week is also spoken of as a reason why Rock Prairie farmers find that a handy shopping point.

Chronic Invalidism.

There are people who seem to enjoy being in ill health; they run from one physician to another, and appear to take actual satisfaction in being told that they have this or that trouble with a high-sounding name; but these people make sickness a fad, and don't want to be well. The great struggling mass of humanity have no time for the luxury of disease; they must be in condition to fight life's battles, and illness means loss of place to them and starvation to their families; for this reason we see the pale faces going to their toil day after day, and we wonder how long before they will succumb. It is pitiful to see such suffering when help is at hand for the asking. These people cannot understand that the medicines of the world's most successful physician are within the reach of everybody, and that consultation and advice are absolutely free of charge at the office of Dr. Greene's remedies, 148 State street, Chicago, Ill. Dr. Greene is the discoverer of the famous Nervura. If you cannot take the time to call, write and you will receive a reply, telling you what you need, and there are thousands who testify that the advice and these remedies are alike infallible. If your neighbor is ill, tell him of this offer, and he will bless you all his life.

BUNDY IS SORRY HE SHOT

Very Anxious For News That Isaac Saxton Will Recover.

Joseph Bundy of Darien, who shot Isaac Saxton, is a very penitent man these days. Now that he has come to his real senses, he is more anxious for Saxton's recovery than any other man, perhaps not excepting Saxton himself. A Delavan paper says: "This is not born wholly of fear, but he realizes the enormity of his offense, that a man's life blood may be on his hands—and the Joe Bundy of today is not the same individual who fired a bullet into Saxton's brain two weeks ago."

At Delavan this week Sheriff McMillen took Bundy before Justice Voss-Sumich, and the examination was continued till Friday, November 5, to await the outcome of Saxton's injuries.

Manufacturers to Operate Coal Mines.

St. Louis, Oct. 29.—It has been proposed by James A. Reardon, a well known business man, and one of the largest consumers of coal in the city, that the manufacturers get together and operate mines for themselves. By that method they would not only free themselves from the trust, but would be able to pay the miners good wages, and still obtain their coal supply cheaper than it could be purchased in the market.

Wilkesbarre, Pa., Oct. 29.—The grand jury has returned a true bill against Sheriff Martin and his deputy for the Lattimer shooting. The likelihood is that Sheriff Martin and his deputies will elect to be tried together. The prosecution will be pushed with vigor.

Not So Bad After All.

First Pretty Girl (angrily)—That fellow across the aisle ought to be horse-whipped. He has been staring at you for the last ten minutes.

Second Pretty Girl—Why, my dear, you are mistaken. He has been looking steadily at you, expecting when you turned in his direction, and then he would look at me to avoid meeting your eyes.

First Pretty Girl (sentimentally)—I wonder—who—he—is.—N. Y. Weekly.

Truthful.

Tramp—I'd like a drink, but I don't suppose you'd want to change this five-dollar bill.

Tramp—Yes, I said you wouldn't want to change it.—N. Y. Weekly.

Impressionist Pictures.

Here are some verses Thomas Wharton once wrote after visiting an exhibition of impressionist pictures:

"And if the purple curfew tolls the knell of purple days,
And the purple herd winds lowing upon the purple lea,
And the purple plowman homeward plods his purple way,
You may leave the world to darkness—but don't leave it to me!"

Testing Him.

Mamma—I wonder why it is that Georgie plays and sings so much for Albert since they've become engaged? She never seems to cease from the time he comes into the house until he departs.

Papa—I guess she wants to make sure that he really loves her.—Chicago News.

No Falling Behind.

Native (western tone)—Did you notice those big hail-stones? Here are some I picked up. They are as large as hen eggs.

Newspaper Correspondent—By Jove! So they are. Immediately telegraphs: "Hail stones fell here to-day as large as ostrich eggs."—N. Y. Weekly.

He Was Afraid.

"I always expected you to marry Miss Uptown. You were engaged at one time, were you not?"

"Yes; but when I saw her beating carpets one day on the roof I realized that if I ever had a dispute I'd stand no earthly show, so after that I didn't go there any more."—N. Y. World.

A Proper Boast.

"There is one thing of which Lord Fizzlecash will be able to boast, besides his title," remarked Miss Cayenne, thoughtfully.

"What is that?"

"No one can truthfully say that his wife married him for his money."—Washington Star.

He Would Admit.

"You must admit," said the high-browed woman, "that many a man has gone to Heaven solely through the efforts of his wife."

"Certainly," said the disagreeable bachelor. "Otherwise they would be alive yet."—Cincinnati Enquirer.

Very Fetching.

I know the girl I love to be most tender and most true. But, better still, I know she has the legal tender too.

WEAK AS LEADERS.

The inherent defect in labor organizations is pointed out by W. H. Mellock in the Nineteenth Century. His suggestions have especial significance as applied to Debs, Sovereign and Abel kind. He says: "Some of these men doubtless have been and are a skillful manual laborers, but not one of them has belonged to that class of master minds, who by invention, enterprise, or industrial generalship, render labor, while stationary as measured by its amount and quality, more and more efficient as measured by result produced. So far as the labor leaders have influenced production at all, they have influenced it by resisting improved industrial methods, not by devising or introducing them. In other words, they have organized productive laborers, but they have never shown themselves capable of organizing labor, and the object with which they have organized the laborers, has been not only not production, it has been the stoppage of production. It has been not to help the laborers to produce more, but to prevent them from producing anything.

"The exceptional faculties, therefore, shown by the so-called labor leaders—if we still may use the common but inaccurate term—instead of indicating that the contemporary labor movement comprises any of those forces necessary for controlling industry, and for increasing or even maintaining our present power of wealth production, in an exceedingly striking manner prove the precise contrary, and the proof will become the more conclusive the more carefully we examine it."

The position of Spain on the filibustering question is untenable. With its entire navy engaged in the task, Spain has failed to prevent the landing of filibusters upon the comparatively small coast of Cuba, yet has the audacity to ask that the United States employ a sufficient force to prevent the departure of a single party of filibusters. Public opinion in this country thinks this government has already spent entirely too much money in filibuster hunting—more than \$2,000,000.

The managers of Gen. Tracy's campaign ignore his election to be mayor of New York by a plurality of about 17,000. If the republicans who are supporting Low could be made to see their duty, Gen. Tracy's plurality would be four times that.

The Sultan of Turkey is getting sufficiently imprudent to give official vent to his anti-missionary feelings again. He demanded the recall of two American missionaries, and Minister Angell ignored the demand.

The attempt to revive Peffer's whiskers as a national issue was a dismal failure. The six years those whiskers occupied a seat in the senate were an ample sufficiency.

There is more of our navy than some of our European friends suppose. We have, according to a report just submitted to Secretary Long, a total of 141 vessels.

They may have worried Richard Where-did-he-get-it Croker, but it will be noticed that nobody has succeeded in making him tell where he got it.

President McKinley knows the people of Ohio and has never had a doubt of republican success.

Those who are predicting radical financial recommendations in the an-

nual message of President McKinley to congress, are talking without knowledge on the subject.

FOREIGN TRADE.

The position of the United States as regards foreign trade, and particularly the export branch, is very satisfactory. The total exports for September were the heaviest for any month this year, and heavier than in any previous September for five years. They aggregated \$104,000,000, a gain of more than 22 per cent over September of a year ago. Imports, on the other hand, show a falling off 16 per cent. from a year ago. The following figures show the exports and imports for the past three months and the great balance of trade in our favor.

HE USES THE CLOTH TO COVER SWINDLE

REV. MR. AIKEN SENDS OUT FORGED DRAFT.

He Has Mail Sent To Janesville In Care of Rev. R. C. Denison and Seems to Have Prepared a Very Interesting Bit of Rascality.

Somebody who represented himself to be Rev. Edwin E. Aiken has been trying to swindle the Rock County National Bank or Rev. R. C. Denison out of \$500 on a forged draft.

The fraud was discovered, but Aiken has not appeared after two weeks waiting and it is assumed that he has brought with a short turn somewhere else.

In this connection it is significant that a dispatch from Maroa, Illinois, announced the arrest of Rev. Walker Gray on the charge of forgery. Gray was about to have been married to Miss Leelah Williams of Kenosha, Ill. He issued a number of forged drafts and several forged post office money orders on towns which he expected to visit but was arrested when trying to cash an order for \$37.50 in Maroa. Gray has been acting strangely for some time and his intimate friends think him insane.

What connection there is between the Maroa case and the attempt to victimize the Janesville bank is not known but inquiry is being made. The Janesville draft was received at the Rock County Bank two weeks ago. It was payable to Rev. Edwin E. Aiken, M. D., or order. The draft was dated Boston, Oct. 4, 1897 and was to Globe National Bank, Boston. The draft was made by the American Board of Commissioners for Foreign Missions. Letters accompanying the draft described Rev. Mr. Aiken minutely and said he would be introduced by Rev. R. C. Denison. The letters of identification were signed by "Jay J. Knox, cashier, Commercial National Bank Kalamazoo, Mich. Suspicious circumstances led to investigation and it was found that there was no Commercial National Bank in Kalamazoo.

Considerable mail addressed to Aiken has been sent in Rev. Mr. Denison's care during the last two weeks. Aiken seems to have planned to introduce himself to Mr. Denison as a missionary from Ohio, stop at his home and get his endorsement on the bogus draft.

FINE FOWLS FROM ABROAD

Twelve Crates of English Prize Winners Received Here Today

With a fine English accent the crate of Red Pyle game roosters crowded defiance to the crate of Black Red game roosters in the American Express office this morning.

Were they not all the way from Birmingham, England? What more natural than that they should drop their h's and broaden their a's?

There were a dozen crates of the blooded fowls received this morning. They were for James Libburt and E. G. Roberts of Emerald Grove, and the freight bill on them was something frightful.

But they were worth it. They included some of the choicest Hamburg's, Red Pyle games and Black Red games in England, and among them were prize winners at the great London poultry show in Crystal Palace.

STRIPES FOR MAIL CARRIERS

Claire D. Capelle and M. J. McDonald Will Get Two Apiece.

A reward of merit is in store for veteran Janesville mail carriers in the shape of black sleeve stripes. The two who have served longest, Claire D. Capelle and M. J. McDonald, get two apiece. The other men in the Janesville service will get but one stripe apiece, each stripe indicating five years of service.

Postmaster Wilson received orders from Washington yesterday afternoon that the Janesville mail carriers be given their stripes in accordance with the new law. The stripes are worn around the coat sleeves a few inches above the cuff. The rule is that one stripe is given for every five years of service. Tailors are putting the braid on Janesville uniforms today.

Miss Isabelle Bratnober will appear with the Maximilian Dick concert company at the Myers Grand opera house on Tuesday evening, November 2, under the auspices of the Imperial band. The Chicago Inter Ocean says:

"Miss Bratnober sang most successfully at the closing meeting of the Social Economical club. The aria from the 'Marriage of Figaro' by Mozart and 'Visions,' by Guy D. Hardolot, with violin obligato, showed the purity of her tone to great advantage. Miss Bratnober has lately returned from London, where she studied with the great Randegger."

B. Withington. Drs. Hart, Chittenden, Powell and Edden expect to leave tomorrow. The shooting season opens November 1. PUT UP NEW TELEGRAPH LINES

Superintendent Ed Smith Runs the Main Line to the Depot.

Superintendent Ed Smith and a force of men today commenced building the telegraph line to the new depot. A dozen wires will be strung from the present freight depot to the Academy street crossing and when the depot is finished the telegraph operator's room will be in the passenger instead of the freight depot and will adjoin Assistant Superintendent Moulton's office.

A new line of poles are being put up to carry the wires. The job will take about a week.

Two cars of Bedford stone arrived last evening and were sidetracked within easy reach of the masons.

A number of the window and door frames for the first floor of the depot were placed in position today.

The steam roller has been at work on High street during the forenoon leveling off the top of the sewer trench.

HAD BROTHER-IN-LAW OUSTED

William Berges Called in the Sheriff to Evict a Relative

It is pretty hard lines when a man has to call in the sheriff to evict a brother-in-law. William Berges, formerly of this city, had this experience in Hanover, and there will be a trial in the municipal court before the matter is settled. Berges went from this city to Hanover to run a hotel and took Herman Geschke his brother-in-law, to work for him. The two did not agree but Geschke refused to leave. A little thing like stopping his salary did not bother him. He said he had a contract and it was his duty to stay. Berges went to law about it and Sheriff Acheson drove over to Hanover yesterday afternoon and ousted the recalcitrant relative. Threats of legal proceedings with long Latin names were made and Nov. 3 was fixed as the date of trial.

DR. F. B. HARGREAVES CONSULTS BUSINESS MEN.

Was a Partner of Dr. Keeley And Has Been Interested In the Cure of Dipsomania and the Morphine Habit For Years—This Is A Good Field.

Dr. F. B. Hargreaves, of Chicago, is in the city with a proposition to locate a liquor cure hospital here. He has been here ten days looking over the field and thinks that the prospects are encouraging. He says that drunkenness and the morphine habit prevail in this part of the state to a degree that insures ample support for a hospital on the plan he has outlined. He has consulted with Mayor Thoroughgood who favors the plan, and is now ready to go before local business men. Dr. Hargreaves was a partner of Dr. Leslie Keeley for years and the two worked together on a cure for drunkenness.

Russian Blouses.

We show the nobbiest line in town, among them being some of the higher class that are gems of the cloak makers' art—exclusive styles direct from New York. A line for Misses' wear in sizes 14, 16 and 18 also in stock.

Coats for Girls.

Three hundred sample Coats for Misses, sizes 14, 16, 18 and 20 years, inexpensive garments for school wear that are proper as regards style and make up. Cute Coats, ranging in price from \$3 to \$10, that would ordinarily be one-third more. Tell the girls to call in after school and see them.

Flannelette Wrappers.

The new line is in, and it displays well made Wrappers in a splendid range of patterns; all sizes, 32 to 44. All of the regular styles in Print Wrappers are shown—75c and up.

Silk Waists.

There is an air about the line we handle that attracts. Other stores show waists, but there is something lacking in them when compared to ours. The talk of the town among women is the excellence of our waist showings. All the latest in blouse effects are in the line.

Our Millinery

Is Parisian in everything but price—and the difference in the latter is all in the favor of our customers. No prettier, more stylish hats than ours could be obtained in Paris at four times the cost. We are showing copies of the best creations of the leading modistes at a fraction of the price you would have to pay for the originals. Better not buy your new hat without coming here first.

Comforter Coverings.

Another sale of them this week. About ten days ago we advertised a lot of prints for comforter coverings and dress purposes, expecting we had enough to last a week; but at the end of the first days' sale they were about cleaned out, with the result that many customers were disappointed. Direct from the mill we have received another two case lot consisting of 3000 yards, if anything a better lot than before; colors are black and white, silver greys, blues, reds, &c. They are Simpson's best standard prints and usually retail at 6c; for this sale price will be the same as at the former sale —per yard..... 3 1/2c

VARIOUS NOTES.

Winter Cloaks—Bicycle Gloves and Stockings—Some Seasonable Materials.

Jacket wraps are to have longer basques this winter than last, but the basques will be flat, without ripples. The back of long redingotes will have godets, but the front and sides will be plain. The front of the latter garments may be close fitting or straight, and the skirt will be left open part way up in order to facilitate walking. A lining may be used or omitted, according to preference. Plain cloths are usually lined, while rough and hairy fabrics are left unlined. Collars are tall and flaring, and may be of the same material as the rest of the garment or of velvet or fur.

LITTLE GIRL'S GOWN.

rics are left unlined. Collars are tall and flaring, and may be of the same material as the rest of the garment or of velvet or fur. Bicycle riders who wish to keep their hands in good condition should invariably wear thick gloves of deer or dog skin. Women now are frequently seen with heavy woolen stockings and low shoes, instead of bicycle boots or leggings.

Such goods as diagonal, serge and chevrot never go out of fashion and are well represented every season, their usefulness and durability insuring them perennial favor. This year they compose many neat tailor made gowns, in deep, clear blues, greens and purple tones. Gray, brown and black are also greatly worn.

Plaids, so much seen among the new importations of all varieties of fabrics, are promising to score a success. They are mainly in large squares or bars and are to be employed as a trimming, used in a bias sense or forming plaitings. Plaid skirts are also worn with plain waists, the bodice being of the color which prevails in the plaid of the skirt.

The picture shows a costume for a little girl. It is of red and black checked woolen goods, the front of the skirt forming a flat tablier framed in two narrow plaitings of red silk and adorned with silver buttons. The blouse bodice opens over a full chemise of red silk. The pelerine collar is bordered with plaitings of red silk, as are the wrists of the plain sleeves. The hat, of red velvet, is trimmed with black feathers. Black stockings are worn.

JUDIC CHOLLET.

ACCESSORIES.

Muffs and Boas—The Newest Belts—A Stylish Jacket.

Gauze cravats, plastrons, boas, chemises, ruffles and similar accessories of delicate materials are trimmed with ostrich plume in various original ways. Sometimes tips, sometimes bands and sometimes fringes of the separate fibers are employed. Little pelerines of plaid, ruffled and draped gauze, silk crepon or mousseline de soie are seen in black and colors, and have this feather adornment. They are to be worn in the street, outside the cape or with a close bodice. Bows of satin, plaitings and ruchings of taffeta, ribbon loops, flowers and lace form additional trimming for these pretty trifles.

Full boas of curled feathers are fashionable. They are not worn of a length great

JACKET.

enough to fall below the waist, and are seen in all colors, but black, white, cream, gray and beige are preferred.

Furs for neckwear, terminating in an animal head, are of other sable or fox, and are much larger than they were last year, being almost like a boa. They are fastened by a hook or a clasp set with jewels.

Muffs are small, and several sorts of fur are often combined for them.

Blouses prevailing to so great an extent, the fashion of belts is a necessary consequence. Belts are mainly narrow and are of many kinds. In grosgrain they are covered with jewels or embroidered with steel and gold; in white, fawn, gray or pink kid they are spangled or embroidered and fastened with a gold buckle. Byzantine belts of gold or silver filigree show jeweled and enameled effects and have clasps of

Motherhood.

A mother who is in good physical condition transmits to her children the blessings of a good constitution. The child fairly drinks in health from its mother's robust constitution before birth, and from a healthy mother's milk after.

Is not that an incentive to prepare for a healthy maternity?

Do you know the meaning of what is popularly called those "longings," or cravings, which beset so many women during pregnancy?

There is something lacking in the mother's blood. Nature cries out and will be satisfied at all hazards.

One woman wants sour things, another wants sweets, another wants salt things, and so on.

The real need all the time is to enrich the blood so as to supply nourishment for another life, and to build up the entire generative system, so that the birth may be possible and successful.

If expectant mothers would fortify themselves with Lydia E. Pinkham's Vegetable Compound, which for twenty years has sustained thousands of women in this condition, there would be fewer disappointments at birth, and they would not experience those annoying "longings."

In the following letter to Mrs. Pinkham, Mrs. Whitney demonstrates the power of the Compound in such cases. She says:

"From the time I was sixteen years old till I was twenty-three, I was troubled with weakness of the kidneys and terrible pains when my monthly periods came on. I made up my mind to try Lydia E. Pinkham's Vegetable Compound and was soon relieved. After I was married, the doctor said I would never be able to go my full time and have a living child, as I was constitutionally weak. I had lost a baby at seven months and a half. The next time I commenced at once and continued to take your Compound through the period of pregnancy, and I said then, if I went my full time and the baby lived to be three months old, I should send a letter to you. My baby is now seven months old and is as healthy and hearty as one could wish."

"I am so thankful that I used your medicine, for it gave me the robust health to transmit to my child. I cannot express my gratitude to you; I never expected such a blessing. Praise God for Lydia E. Pinkham's Vegetable Compound, and may others who are suffering do as I did and find relief, and may many homes be brightened as mine has been."—MRS. L. Z. WHITNEY, 5 George St., E. Somerville, Mass.

ACORN AND SUNSHINE

Would allow other Stove makers no larger than themselves to put a superior Stove on the market at a lower price. Not much. They have too much at stake. The same goods as are sold by some dealers can be bought in other parts of the country, retail, at 35 to 40% less than prices asked. We only ask a fair profit. We sell for cash and have no bad debts. We are selling on our fourth car of Stoves this season. NOTICE OUR STOVE PRICES.

A Cold Day When There Are Flies

ON US, OR BEES IN OUR BONNETS.

WE keep going pretty fast to let anything catch us--even competition. Each day finds us busy as the preceding one.

Stove business Is wonderful:::

This year. We catch most every prospective Stove buyer; a few of them get away, not many though. People always look around among all the Stove stocks in the city, but they finally land at the really only complete stock in Southern Wisconsin. OUR SALES AVERAGE ONE CARLOAD OF STOVES A WEEK. We are busy as bees, and intend, as we always have, to keep prices low enough to hold every purchaser.

So many people are in doubt when they buy anything--even a 5c purchase. All feeling of this kind is dispelled in your Stove purchases at our store; there is no room for doubt.

WE picked seven makes of Stoves as our sellers--not one of them with a fault--and every one a gem for the house:

Garlands,

Over three millions in use.

Jewels,

Over two millions in use.

Jewetts,

Three and one-half millions in use.

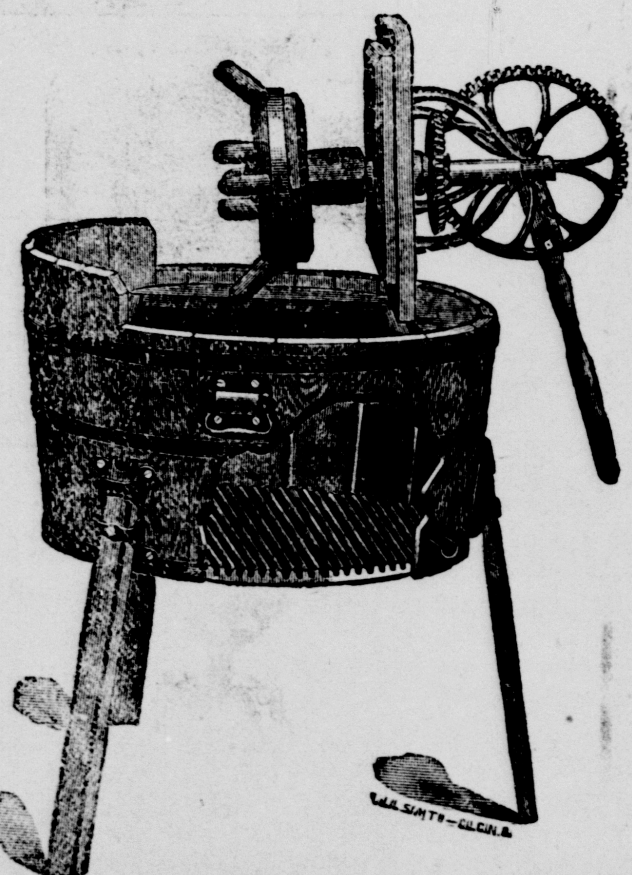

Red Cross,

Round Oak,

Riverside Oak.

SEVEN OF THE WORLD'S BEST MAKES.

We show the greatest line of SECOND HAND STOVES in the city, all prices and all kinds, cooking and heating.
